Supporting the Family Caregivers Who Work Around the Clock

In 2015, ACL’s National Family Caregiver Support Program (NFCSP) provided support to more than 750,000 family caregivers.

Support Included...

- Counseling & Education
- Information
- Respite Care
- Assistance
- Supplemental Services

Of Caregivers Supported by the Network:

The Commitment...

- 38% report that they have been caregivers between 2 and 5 years.
- 59% report that the care recipient needs someone present nearly all the time.
- 21% said not enough time for self/family is the hardest part of caregiving.

The majority of caregivers report their commitment to caregiving requires more hours than a full time job.

The Value of Support...

- 73% of caregivers reported that support services enabled them to provide care to the recipient for longer.
- 61% said that they have more time for personal activities because of the support services they received.

Almost 4 out of every 10 caregivers indicated that the care recipient would not continue to live at home if their current services were not available.
