

Annual Family Caregivers Month Celebration

The Baltimore City Health Department National Family Caregivers Program is planning to celebrate National Caregivers Month. In honor of this occasion, the program is looking for 50 outstanding caregivers. This important occasion will give us the opportunity to acknowledge and to thank some of the 30,000 caregivers in Baltimore City for their time and support that they provide to their loved ones that include their neighbors and friends. Also, because caregivers assume this significant responsibility caregiving equally is a contribution to the city at large.

If you know a caregiver who should be nominated for this celebration, please contact the family caregivers program for an application at 410-396-1337 or visit our office at the address below.

National Family Caregivers Program
BCHD, Office of Aging and CARE Services
Division of Community Services
417 E. Fayette Street, 6th Floor
Baltimore, MD 21202

During the ceremony, the program will award gift packs and other gifts to local family caregivers which will allow them to enjoy a day of respite from caring for their loved ones. This gesture will also serve to let caregivers know that we are aware of their sacrifice and appreciate what they do each day, and that their commitment has not gone unnoticed.
